

EDUCATION INFORMATION IN YANGON REGION

Findings and Recommendations from the Workshop

- Create a decentralized education system
- The National Education Law needs to be reformed based on community participation
- The Government should recognize and accept community schools. Moreover, the Government should also support and manage them.
- Need to innovate and update the curriculum and teaching methods along with implementing compulsory education.
- Need transparency surrounding the foreign aid education budget and increase education expenditure.
- In the Hluttaw sessions, MPs hold few discussions on the education sector. In Yangon, education was only discussed eight times while Mandalay discussed it 68 times.
- Need to increase the teachers' salaries and improve teaching quality.
- Entrance for higher education should not be decided by scores, but by the students' interests.
- University entrance should be granted students' interests rather than solely on exam scores.
