

EDUCATION INFORMATION IN RAKHINE STATE

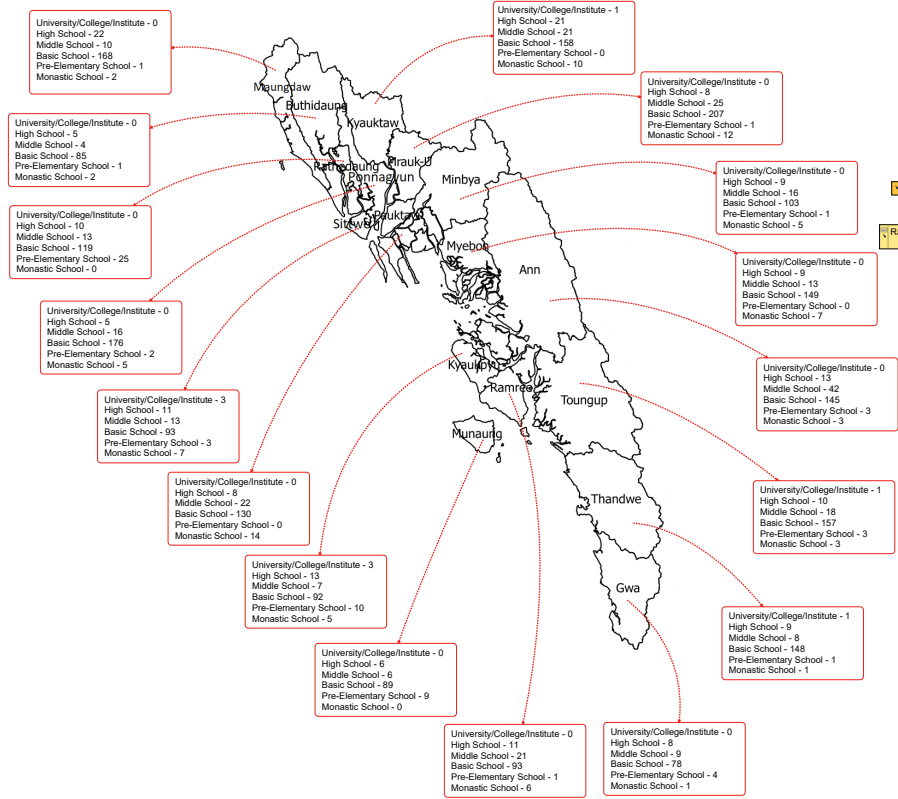

Pon Yate conducted a conference, "Information and Education Workshop in Preparation of 2020 Election Issues," from 20 to 31 August 2019. Over seventy people including members of parliament and the civil society leaders from 14 States and Regions participated in that workshop. Fifteen topics, including "Education," were discussed based on the facilitation questions.

Findings and Recommendations from the workshop

- Create an all-inclusive Education policy for each State and Region with the consensus of the community, government, and Hluttaw.
- Create an Informal Education Policy.
- Mother-tongue based curriculum in government schools.
- Need sufficient infrastructure and teaching aid in the Education sector, including an increased Education budget for quality education.
- Create access to a quality education system for all stakeholders in the private sector.
- Create and support a more practical education system.
- The Government should recognize and support the necessary education services for IDP students. Also, the Government, Hluttaw, and Political parties need to solve the armed-conflict as it currently destroys many students' access to education
- A student's entrance for higher education should not be decided by test scores, but by students' interest.
